

Weddings

We love being at weddings and weddings love us!

Our booths are bigger which means more people, more room, more fun. We can also customise the booth to your liking.

A photo booth on your special day will give you the perfect addition for you and your guests.

Fun and entertaining, and with instant photos to keep forever, your guests will love it. Video messaging is also an option.

You will receive on the night a beautiful album full of treasured photos and messages that you will cherish forever, memories that will last a lifetime.
